Social Thinking's free webinar series

How to Use Social Thinking Materials to Teach Ages 19-80

Social emotional learning isn't just for children, we continue to strengthen and improve our social and emotional competencies across our lives. Michelle Garcia Winner, the founder of Social Thinking, and her colleague Dr. Pamela Crooke have been helping young and mature adults develop these competencies for over 15 years and have been inspired by growth in clients of every age. In this webinar, Michelle will discuss concepts and strategies to help adults with subtle but significant social learning challenges. She will also review the information taught in the book *Good Intentions Are Not Good Enough*, written by Michelle and Pam, in addition to the newest strategies they are currently developing.

- 90 minutes of instruction
- Original webinar took place Mar. 23, 2017, recording is available to be watched at any time
